

# NOTICE

## TREE TRIMMING AND LINE CLEARING

In order to provide a safe and reliable power supply for our customers we regularly trim trees, which are close to our power lines.

Trees coming in contact with power lines cause problems, including:

- power interruptions to homes, businesses, traffic lights, etc;
- radio and television interference;
- shock hazard to people touching or climbing trees that have contacted power lines.

Trees shall be cleared from the lines in accordance with the Ontario Electric Code.

Haldimand County Hydro will be performing Line Clearing and Tree Trimming during 2011 in the following areas –

**Town of Caledonia, Hagersville, Jarvis,  
Cayuga & Dunnville (Urban area only).**

If you have any questions or concerns please contact the Haldimand County Hydro Operations Department at (905) 765-5211 extension 2233.
